

FULLY INTEGRATED with Lowe's IMS Portal!

**ADD SOME
'TECH'
TO YOUR TEAM
With Cilio CiO**

CiO is: **Customer Installations Online**

Brought to you by Cilio Technologies, who since 2001 has been delivering powerful solutions including the **Lowe's countertop portal**, and software for the Installation, Service, and Storage Industries.

CiO is a cloud-based app. designed specifically to help **Installation & Service** companies manage their work from start to finish. CiO was designed thru the eyes of installers and service providers to solve many of the pain points experienced in running day-to-day operations, improve communications, and ultimately give you back hours to the work week.

We cater to overworked, "non-techy" people!

Cilio works closely with Lowe's to ensure we have the best IMS Integration available.

It starts when you open a CiO account, we contact Lowe's to connect your IMS portal. While managing your work in CiO, we simply update IMS with your dates, notes, docs, etc.!

Here are some examples of how we help with IMS at each stage of the job

New Jobs

We automatically pull all new work from IMS into your CiO app
Contracts, Details, PO line items, etc. are all right there in CiO
We even bump out activities so you're not overdue on Mon. morning!

You'll easily see when product is pulled and it's time to schedule
Schedule or reschedule in CiO, and all dates pass into IMS
Fill out your detail in CiO and upload to IMS right from the job

Mid Job

Finish the job

Customer can sign your COC on ANY mobile device
We automatically close out the whole job from there!
COC uploaded to IMS, Activities complete. All automated!

No more managing multiple systems
Eliminate scanning/uploading documents manually
Get paid faster
Less Overdue Activities makes you look better to Lowe's!

The Impact

*We basically took all the ideas in your head and actually built it...
Whether you want just the basics to make IMS easier, or all the gadgets, we get it and have solutions to fit every size company and budget!*
